

Amendments to the Drawings:

The Applicant encloses new amended drawing sheets containing Fig. 1, Fig. 8 – 13, and Fig. 20.

REMARKS/ARGUMENTS

Applicant thanks Examiner for the detailed Office Action dated January 10, 2006. In response to the issues raised, the Applicant offers the following submissions and amendments. Also enclosed is a supplementary Information Disclosure Statement and Terminal Disclaimer linking the term and ownership of any patent granted on the present application to that of co-pending USSN 10/728,925.

Information Disclosure Statement

The supplementary Information Disclosure Statement includes a legible copy of WO 00/23279 in the name of Silverbrook. We submit that the IDS complies with 37 CFR 1.98(a)(2) and trust it will be duly considered.

Amendments

Due to the substantial amendments made to the description, the Applicant submits herewith a marked up and clean copy of the substitute specification.

Page 1 of the specification has been updated: the first line of Page 1 of the specification has been deleted and replaced by a paragraph entitled "Cross Reference to Related Applications". The Applicant submits that this amendment introduces no new matter.

The description and drawings have been amended throughout such that the terminology and reference numerals used to indicate corresponding features in each embodiment is more consistent. The description and claims have also been amended to correct typographical errors and obvious mistakes that the Examiner has brought to light.

Accordingly, the amendments do not add any new matter.

Nonstatutory Double Patenting

The enclosed Terminal Disclaimer links the term and ownership of any patent granted on the present application to that of co-pending USSN 10/728,925. The Applicant submits that this avoids any unjust timewise extension of patent rights or harassment from multiple assignees.

Conclusion

It is respectfully submitted that the Examiner's objections have been successfully traversed and the application is now in condition for allowance. Accordingly, favorable reconsideration is courteously solicited.

Very respectfully,

Applicant:
